## INFORMATION GUIDE

# CARRY ALL

### CAX1

---

The CAX1 Carry All is a versatile implement designed to simplify heavy lifting and transport tasks on the farm, job site, or property. With a robust capacity of up to 1,000 pounds\*, it functions as an extra set of hands, enabling users to efficiently move bulky or heavy items with minimal effort.

Operators can utilize the Carry All to transport feed bags, sod, and other materials that require stable support and easy mobility. Its sturdy frame serves as a foundation for a customizable platform, making it ideal for a wide range of hauling needs.

## General Safety

- Only trained and authorized individuals should operate the tractor and carry all implement.
- Never allow children or untrained persons to operate the equipment.
- Ensure the implement is properly attached, adjusted, and in good working condition before use.
- Inspect all components regularly for wear, damage, or loose connections.
- The tractor must be equipped with a ROPS (Rollover Protective Structure) or ROPS cab and a securely fastened seat belt. Keep foldable ROPS systems in the “locked up” position at all times.
- Never allow riders on tractor or implement.
- A minimum of 20% of the combined tractor and implement weight must be on the tractor’s front wheels when transporting implements. Insufficient front-end weight can cause the tractor to tip over, resulting in serious injury or death. Use front-end loaders, wheel weights, tire ballast, or front tractor weights to achieve proper balance. Weigh the tractor and implement—do not estimate.
- Do not operate or transport equipment while under the influence of alcohol, drugs, or medication that impairs judgment.
- Operate only in daylight or under adequate artificial lighting.
- Keep children, animals, and bystanders away from the operating and storage areas.
